

Allergen, Flaxseed (f333) IgE

Test ID: 11011

CPT: 86003

Clinical Significance:

Latin name: *Linum usitatissimum*

Source material: Dried seeds

Family: Linaceae

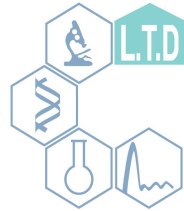

Common names: Linseed, Flaxseed

Allergen Exposure

Geographical distribution

Flax has been cultivated and has grown semi-wild wild in various temperate and tropical regions for so many centuries that it is not even clear which hemisphere the plant originated from. Egyptians, Hebrews, Greeks, Romans and New World civilisations used the seeds as food and the fibres (flax) for textiles.

Profile Components:

Labtech Diagnostics

Container:

Serum Separator Tube (SST®)

Transport Temperature:

Room Temperature

Specimen:

Serum

Specimen Stability:

Room temperature: 28 days

Refrigerated: 28 days

Frozen: 1 year

Reject Criteria:

Days Performed:

Mon-Sat

Collection Instructions:
